

GARDEN EDGE — CORRECTED SHAPE (3rd round: entry space at the left door)

1 SECTION ACROSS AT C1 — 1:25

tall house wall LEFT — garden RIGHT

2 KEY PLAN — 1:75 (V1 shown; same edge for all)

3 3D — SAME DIRECTION AS THE SITE PHOTO

WHAT CHANGED
NEW (C09): paved entry space 0.60 between the façade and the planter's near-end kerb, so you can walk in to the left (glass) doorway next to the brown slider — as the photo. The garden CONTINUES along the low wall (no end).
Garden / planter is double: 1.00 m from the kerb (door-jamb line) to the low white wall.
The timber-clad columns stand against the low wall and are fixed to it (2 SS brackets each).
So the roof edge comes out to the wall: +0.75 m (V1 3.44 → 4.19, V2 2.54 → 3.29); the whole planter is under the roof.
PLEASE CONFIRM
Garden 1.00 + columns at the wall + roof to the wall: confirmed by you (C08). All 12 sheets follow.

COURTYARD ROOF — GARDEN EDGE

Kerb -> 1.00 m planter -> low white wall; columns against + fixed to the wall; roof out to the wall; paved entry space 0.60 in front of the left doorway (as photo).
